

## Corona Virus Update

March 2020

While the Corona Virus rolls through the country, we will be in the office working on client matters. We will, however, limit the in-person contact that we have with our clients for your safety as well as ours.

Many matters can be handled by the phone and e-mail. If we must meet with you in person, we ask that you schedule an appointment

We will cooperate with and follow the instructions of local, state and national authorities. If we are ordered to close, we will do so. In that event, I will take information home with me and work on matters from home.

I will update you on further developments as they occur.
